A Second Course in Probability - GBV

These are notes for a second course in differential equations originally taught in the Spring semester of 2005 at the University of North Carolina Wilmington to upper level and first year graduate students and later updated in Fall 2007 and Fall 2008. It is assumed that you have had an introductory course in differential equations.

A Second Course in Ordinary Differential Equations

In establishing the existence result for second and higher order linear differential equations one transforms the equation into a linear system and tries to solve such a system.

A Second Course in Elementary Differential Equations

CS261: A Second Course in Algorithms Lecture #1: Course Goals and Introduction to Maximum Flow Tim Roughgardeny January 5, 2016 1 Course Goals CS261 has two major course goals, and the courses splits roughly in half along these lines.
