Wages in the manufacturing sector are above average because manufacturing is a high-productivity, capital-intensive sector. Unionization rates are higher in manufacturing (10.5 percent in 2012) than in the private sector as a whole (7.3 percent), reflecting labor's greater bargaining power in manufacturing, compared with other sectors of the economy (BLS 2013b).

Trading away the manufacturing advantage: China trade

Computer-aided design (CAD) is the use of computer systems (or workstations) to aid in the creation, modification, analysis, or optimization of a design. CAD software is used to increase the productivity of the designer, improve the quality of design, improve communications through documentation, and to create a database for manufacturing. CAD output is often in the form of electronic files ...
