The alkali-silica reaction (ASR), more commonly known as "concrete cancer", is a swelling reaction that occurs over time in concrete between the highly alkaline cement paste and the reactive non-crystalline silica found in many common aggregates, given sufficient moisture.. This reaction causes the expansion of the altered aggregate by the formation of a soluble and viscous gel of sodium ...

Brutalist architecture flourished from 1951 to 1975, having descended from the modernist architectural movement of the early 20th century. Considered both an ethic and aesthetic, utilitarian designs are dictated by function over form with raw construction materials and mundane functions left exposed.

Letters to the Media about Evidence of Super Thermite. April 21, 2009 I have sent the following letters to the New York Times, CNN and Time Warner, my representative in Congress, and the Guardian newspaper in Britain. Letters like these should be sent by concerned citizens across America and around the world to local politicians and media as well as the big networks and each and every member ...
