The dialogical self is a psychological concept which describes the mind's ability to imagine the different positions of participants in an internal dialogue, in close connection with external dialogue. The "dialogical self" is the central concept in the dialogical self theory (DST), as created and developed by the Dutch psychologist Hubert Hermans since the 1990s.

5. Legal regulation of the use of dashcams: the search for a balance. As can be seen from the research of the legal regulation of the use of dashcams in certain countries, despite a harmonised EU data protection system arising from the General Data Protection Directive of 1995, the practice of separate EU countries on the use of dashcams and the publication of recordings differs.

Information technology law (also called "cyberlaw") concerns the law of information technology, including computing and the internet. It is related to legal informatics, and governs the digital dissemination of both (digitalized) information and software, information security and electronic commerce. Aspects and it has been described as "paper laws" for a "paperless environment".
